

Castlemaine Kyneton Dale research 27 3 2021

Hey Dale

I'm not going to spend much time on this dig as I would rather focus on the tunnels in Bendigo.

Castlemaine has a few points of interest (below), but the symbology that I've found in Kyneton is very interesting.

Golden Point near Castlemaine.

Tunnel or under bridge storm water outlet highlighted by small square. I'm not sure what the circular formation is about.

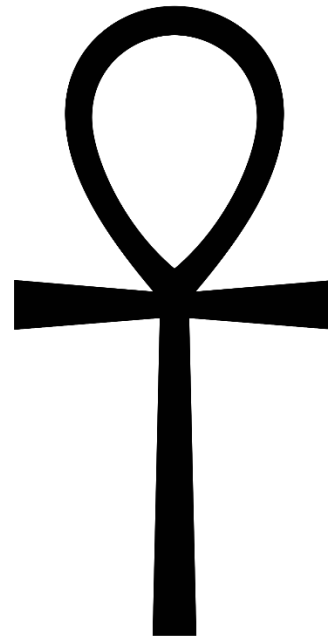

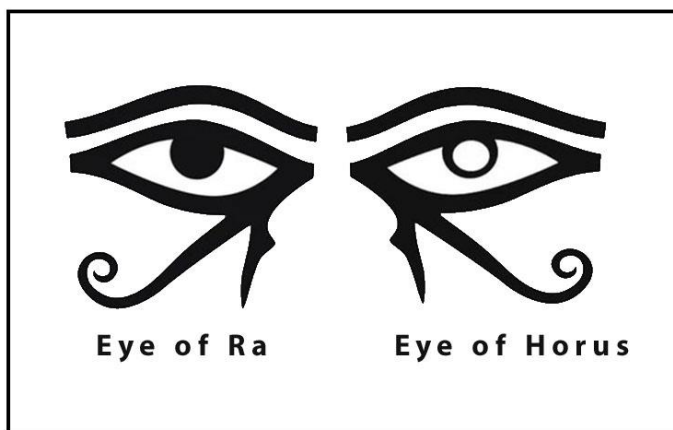

Triangular formation near Forest Creek mine.

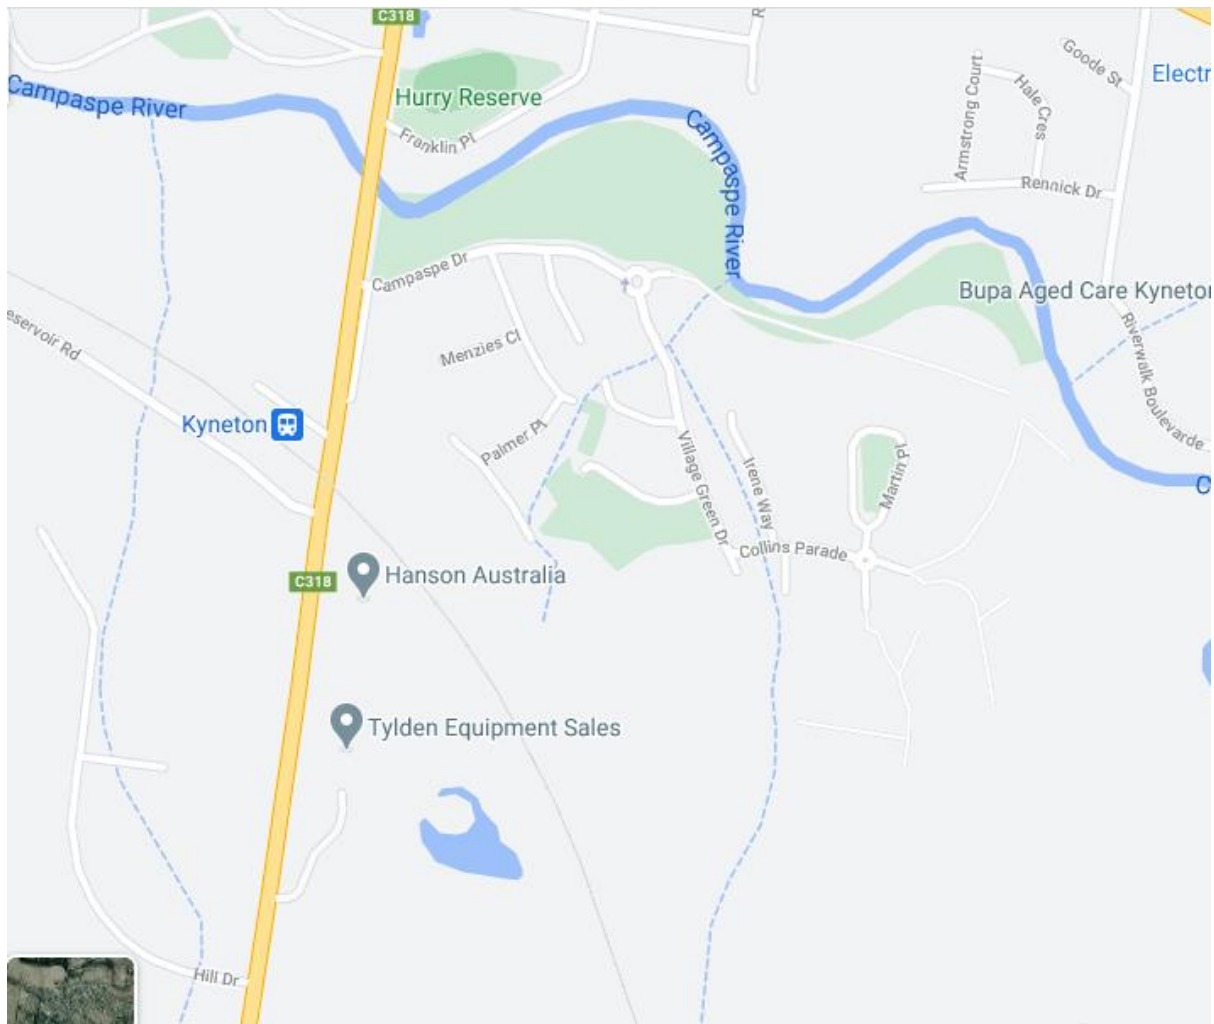

Kyneton:

The juxtaposition of the rising sun motif on the left with what looks like the eye of Ra AND an Egyptian Ankh in this streetscape seems too coincidental to be unintentional. The white lines to the right of the ankh also seem reminiscent of something but not sure what. This is nearby to the Kyneton Botanic Gardens.

Menzies and Palmer are the names in the eye of Ra formation.

Collins is also a big name in Freemasonry.

Two nearby businesses both provide masonry materials.

Tyledon Equipment sales :

Welcome to Tylden Equipment Sales

Tylden Equipment Sales is a leading Australian, Victorian based manufacturer and supplier of equipment to the concrete, cement, quarry, masonry, fertilizer, water treatment and mining industries.

Hanson Australia also does the same sort of products.

None of this really means anything as such. A psychologist would say this is simply a case of paradolia.
